Cluster-Based Recommendations for Student Mentoring

Cluster 0: At-Risk Students

Cluster Characteristics

- Low Academic Performance Score (APS)
- Low Student Readiness Index (SRI)
- High stress levels
- Poor productivity and time management
- Often categorized as Red / Yellow in rule-based scoring

Key Risks

- Academic failure
- Burnout and mental health issues
- Low engagement and motivation

Recommended Actions

- Immediate mentor assignment
- Personalized academic recovery plan
- Frequent mentor check-ins (weekly)
- Stress management and wellbeing support
- Reduced workload and structured study plans

Mentoring Goal : Stabilize the student academically and emotionally while preventing dropout or burnout.

HEPRO AI+

Cluster 1: Transitional Students

Cluster Characteristics

- Moderate academic performance
- Inconsistent productivity and wellness
- Mixed SRI categories (Yellow / Blue)
- Shows improvement potential

Key Risks

- Performance fluctuation
- Loss of motivation without guidance

Recommended Actions

- Regular mentoring sessions (bi-weekly)
- Time management and productivity coaching
- Study planning and goal setting
- Engagement monitoring
- Early warning nudges for declining trends

Mentoring Goal : Help students transition into stable performers through consistent support and guidance.

HEPRO AI+

Cluster 2: High Performers

Cluster Characteristics

- High APS and SRI
- Strong productivity and engagement
- Clear academic direction
- Mostly Green category students

Key Risks

- Underutilization of potential
- Lack of advanced growth opportunities

Recommended Actions

- Career acceleration mentoring
- Leadership and peer mentoring opportunities
- Advanced skill development programs
- Internship, research, or project guidance
- Long-term career planning discussions

Mentoring Goal : Enable sustained excellence and prepare students for advanced academic and career opportunities.

Cluster 3: Career-Confused Students

Cluster Characteristics

- Strong academic performance
- Lower Career Readiness Score (CRS)
- Unclear career goals
- Mixed SRI categories

Key Risks

- Career indecision
- Skill mismatch with future goals
- Anxiety about post-graduation plans

Recommended Actions

- Career counseling sessions
- Skill-mapping and gap analysis
- Industry exposure through talks or workshops
- Resume building and career exploration activities
- Mentor guidance focused on career clarity

Mentoring Goal : Align academic strengths with clear and achievable career pathways.
